VI Answer the following with reference to context:- (ERC):

1. "Mercury is planet number one,
 It is the closest to the sun.
 Mars is planet number four.
 Our neighbour next door."

a) Why is Mercury planet number one?

Ans:- Mercury is planet number one because it is ^{the} closest to the sun.

b) What does "our" refer to in the above lines?

Ans:- "our" refers to the planet Earth.

VII Answer the following:-

1. What does the speaker have no clue about?

Ans:- The speaker has no clue about why the sky appears blue and the sun is yellow.

2. What would the speaker do if she could go to space?

Ans:- If the speaker could go to space, she would see _____ asteroids floating and _____ comets whooshing through the sky.

3. Why is the speaker filled with lylee?

Ans:- The speaker is filled with lylee to be on Earth and have it as her home.
