

CHAPTER - I RESOURCES

I TECHNICAL WORDS

1. Ubiquitous - found everywhere.
2. Turmoil - state of distress and unrest.

II SHORT ANSWER QUESTIONS:-

1. Define actual resources.

Actual resources are the ones that are being used right now and whose quantity and quality are known to us. For example, mineral deposits in Madhya Pradesh, India and petroleum deposits in Saudi Arabia.

2. Write a short note on Kyoto Protocol.

The Kyoto Protocol refers to the protocol of The United Nations Framework convention on climate change. The main aim of this protocol is to curb global warming.

III LONG ANSWER QUESTIONS:-

1. What are the measures to be taken for conserving resources?

* We need to take measures in order to conserve these resources.

* Carpooling and use of public transport is one such initiative towards conservation of resources.

* Also, strict guidelines have to be set for

industries which cause a lot of air, water and soil pollution.

- * Stringent actions should be taken against anyone who doesn't follow the guidelines.

- * People should not think that they can exploit the resources in the name of development.

2. List out the Principles Of Sustainable Development.

- * Honour and nurture all living beings.

- * Enhance the well being of human life.

- * Preserve the vitality and variety of Earth.

- * Reduce the exhaustion of natural resources.

- * Shift individual attitudes and behaviours concerning the environment.

- * Empower communities to safeguard their surroundings.
