

CHAPTER-5 GREEN SKILLS

I Answer the following:

1. What is the meaning of sustainable development?

Ans: Sustainable development is the development that satisfies the needs of the present without compromising the capacity of future generations, guaranteeing the balance between economic growth, care for the environment, and social well-being.

2. What are the three major problems related to sustainable development?

Ans: The three major problems related to sustainable development are

- * Food
- * Water
- * Fuel

3. Write any three steps to reduce inequality.

Ans: To reduce inequalities we can:

- be helpful to one another.
- include everyone while working or playing.
- help others by including everyone whether they are small or big, girl or boy, belong to any class or caste.

4. List few ways in which we can use resources sensibly.

Ans: We can do the following in order to use our resources sensibly.

- Reusing paper, glass, plastic, water etc.
- Taking cloth bags to market carrying fruits and vegetables.
- Donate things we do not use such as clothes, books, furniture, food etc.
- Buy and eat seasonal fruits and vegetables from local growers.
